Racing at Delaware Park cancelled due to extreme heat

John F. Wayne, Thoroughbred Racing Administrator, has notified Michael Scuse, Delaware Secretary of Agriculture, that racing has been cancelled for today, August 2, at Delaware Park. This action was taken on the advice of the Commission's veterinarian who said the extreme heat poses a threat to the health and safety of the jockeys and the horses.

Racing is expected to resume on the next scheduled race day, which is Saturday, August 5. Temperatures are expected to be in the 80's by that time.
